Methodist church, officiating.

Mr. and Mrs. Melton will make their
home at Brady, Texas.

Jesse M. Peters.

Jesse M. Peters, who was brought
here from Marathon last week on ac-
count of his health, died about noon
Wednesday. Decedent was in the ranch
business at Marathon, to which place
he moved about eight years ago from
Bryan, Texas.

Decedent had just passed the prime
of life, being but little beyond his 51st
year, when he fell asleep—another vic-
tim of the great white plague. Be-
sides his wife and three children, 20
daughters and one son, he is survived
by two brothers, Mr. A. F. Peters of
Hondo, and a brother residing at Bryan,
Texas.

The body was shipped to Bryan on
the Wednesday evening train for inter-
ment in the family cemetery.

Tom Cameron.

Following quite a protracted illness,
Tom Cameron, aged 66 years, died at
his home in the south part of town at
4:30 o'clock Wednesday afternoon.
Decedent had been a citizen of Hondo
many years, was a bachelor, and since
the death of his mother several years
ago he has lived alone. He is survived
by several nieces and nephews and other
relatives here.

Some two months ago he was tried
on a lunacy charge and pronounced of
unsound mind, the mental condition un-
doubtedly resulting from his physical
infirmities. There being no vacancy in
the asylum, and the court not desiring
to remove him from his home to which
he was very much attached, an attend-
ant was engaged to stay with and look
after him.

His body was laid to rest in Ingle-
side at 5:00 o'clock Thursday afternoon,
and another familiar figure has been
removed from our midst.

"Now that life's fitful fever is over
may he sleep well."

Hornby to Speak.

I ask the people of Hondo and vicinity
to come to Court House Saturday
night, August 17, and give me a hear-
ing on my candidacy for Representa-
tive. I want the people to know just
what I stand for. My opponent, A. J.
Durham of Sabinal, is respectfully in-
vited to open and close this debate if
he so desires. I do not believe in mud-
slinging and have not been nor will be
guilty of it.

Ladies are especially invited.

Yours, for an open fight,

H. P. HORNBY,

of Uvalde, for Representative.

A Statement from Hornby of Uvalde.

Fellow Democrats:

I appeal to you for your support be-
lieving that if you will read what I
have to say and compare it with the
platform of my opponent you will see
that I have some practical ideas to
suggest and not mere generalities.

I served 4 years in the Legislature
from 1911 to 1915. I was re-elected
without opposition and voluntarily re-
tired after the second term on account
of business affairs at home.

My record shows that I voted con-
sistently against extravagances and
useless expenditures. That my every
vote for laws effecting farmers and
stockmen was endorsed by those en-
gaged in those occupations. I served
on important committees and secured
the enactment of several bills of state-
wide importance. I was regarded as
an active member and not merely a
voting member. Therefore I can point
to what I HAVE voted for and not
what I intend to do.

A strong effort was made to put
Medina in with Bexar County and make
a florial district so Bexar could get
one more representative. I opposed
this although I could have put Frio
County in with Uvalde. The people of
Medina County did not want to go in
with Bexar and I obeyed their wishes.

I favor advancing the year on which
delinquent tax suits can be brought
from 1885 to 1910. Present property
owners should not be penalized for er-
ror and delinquencies of former genera-
tions. Where the State secures \$1.00
for back taxes the property owners
pay \$8 or \$10 in costs etc. If taxes
have not been collected prior to ten
years ago the present owner should
not have to suffer the consequences.

A State dept. for sale of school,
county bonds, etc.: Let the counties
save the commissions paid bond sellers.
The buyers can come to Austin where
the bonds are approved and registered.
The State can make a small commis-
sion and the people get the benefit.

\$3.00 per day for jurors. I helped
secure the extra 50c now paid, but the
increased cost of living demands more
pay.

I favor amending our pure food, feed
and seed laws so as the people will get
what they pay for or some one will be
made to pay the penalty.

State aid for Rural schools so they
can run the full term. Adequate ap-
propriation for other educational in-
stitutions.

A tannery at the State penitentiary
so the State can get the benefit of 10c
hides and \$1.20 per pound for leather.
20,000 pairs of shoes are required for
inmates of asylums and penitentiaries.
Why not make the leather as well as
the shoes.

I favor successful business men at
the heads of state departments and
successful practical farmers as man-
agers of state farms.

I secured the passage of certain bills
for the fighting of consumption and
communicable diseases and favor ade-
quate appropriations for sanitariums,
asylums, etc.

I favor putting a stop to the whole-
sale destruction of the horned toads.
Filled with cutting ants they are of
more value than stuffed with sawdust
and sold to tourists.

I believe that cotton mills should be
exempt from taxes and manufacturers
encouraged to come to Texas. A state
never got rich on raw material produc-
tion.

I have favored bills for protection of
women workers and improving the con-
ditions of laborers generally.

I don't think it necessary to employ
80 men in Highway Commission to col-
lect taxes on automobiles. All unneces-
sary commissions and useless office
I am in favor of abolishing in order
to reduce taxation.

Fellow democrats, the vote cast July
27th shows that I was the choice of
the people of the district. I only need-
ed 144 votes out of 4,303 votes cast to
give me a majority over both my op-

ponents. In other words Mr. Durham
needed about five out of Mr. Harris'
776 votes while I needed only one.
Don't you think I was entitled to the
office without the expense of another
primary? I have repeatedly invited Mr.
Durham to joint debate but he has de-
clined. I have treated Mr. Harris with
every courtesy and before announcing
wrote to ask his intentions; he replied
that he had hardly any intention of
running at all, and if he did not would
"certainly be for Hornby."

I ask your fair and honest considera-
tion of my claims. I believe that I was
the choice of the people and that the
only hope of my opponent is the indif-
ference of the voters and he being able
to get out a better vote. Won't you
please help me, and tell your friends
to do likewise.

My former experience and acquaint-
ance with many members would enable
me to make you a more serviceable
representative at Austin, and if you
will elect me August 24th I assure you
that I shall do my dead level best for
the interest of my district.

Very truly yours,

H. P. HORNBY, Uvalde City.

gust 24th.

Sample Ballot

Democratic Run-off Primary

OF MEDINA COUNTY

AUGUST 24, 1918

I am a Democrat and pledge myself
to support the nominees of this pri-
mary.

For Lieutenant Governor—

T. W. DAVIDSON

of Harrison county

W. A. JOHNSON

of Hall county

For Comptroller of Public Accounts—

H. B. TERRELL

of McLennan county

C. C. MAYFIELD

of Erath county

For Attorney General—

JOHN W. WOODS

of Taylor county

C. M. CURETON

of Bosque county

For Representative 116th District—

H. P. HORNBY

of Uvalde county

A. J. DURHAM

of Uvalde county

The above is a sample of the ballot
that will be used at the run off primary
to be held next Saturday, August 24th,
with the possible exception of lieuten-
ant governor. The daily papers a few
days ago carried an announcement to
the effect that T. W. Davidson, candi-
date for lieutenant governor, had
withdrawn from the race, which we
suppose will have the effect of mak-
ing W. A. Johnson the Democratic
nominee, and the removal of both
names from the official ballot. How-
ever, Judge Haas, acting secretary
of the Medina county Democratic Ex-
ecutive Committee, had received no of-
ficial announcement of Mr. Davidson's
withdrawal up to Thursday afternoon,
and unless he does before the official
ballots are printed it is possible that
both names will appear on the tickets.

August 24, Registration Day.

Saturday, August 24th, 1918, has
been designated as registration day for
all young men who have become 21
years of age since the 5th of June.
As this registration is imperative all
those who have reached 21 years since
the last registration day must appear
before the local exemption board and
register. Failure to comply with this
order of the war department is sure to
get those failing to register into
serious trouble. Remember the date,
August 24th, and call at the office of
the local exemption board, upstairs
over the First National Bank, and reg-
ister.

Club Girls Convention.

Dearest Club Girls:—

I am writing a late letter, but it was unavoidable. We must get very busy now and prepare for our Convention, which will be held in Waco, Aug. 21-22. We can get a one cent rate to this meeting.

Be sure to take a receipt for your fare, both going and coming, if your agent says he has not been advised as to the one cent rate, and we will get a refund for you. Be sure to keep this receipt, as we can do nothing for you if it is lost.

There will be chaperones wearing badges to meet all trains coming into Waco, beginning the morning of the 20th; and I would suggest that all delegates wear ribbon badges also. I will keep the girls all in one body, as I did last year, and their expenses per day will be about the same as last year. We are going to have a wonderful program and I am sure you are going to enjoy it very much. There will be a delightful social program too.

Now, be sure to get your delegates ready and send them on the same basis as last year—that is, one for every 25 members. If you have not enough funds, perhaps you can get the business men to help you make up funds to cover the railroad fare for your delegates. We will take good care of you and you will enjoy every moment of your stay.

Many wonderful letters have come during the past week, but I shall not answer them in this club letter; will save them for our State meeting. Have your reports ready and be sure to tell of all your Red Cross work, Thrift Stamp work, and canning. Put in all of your activities for the past year. Send your exhibits right away to me at Waco, care of Chamber of Commerce. Our exhibit this year will be for the Red Cross, and the things you send we will give to the Red Cross, so please don't send things you want to keep, such as canned goods.

Now, with lots of love to you all, and hoping to see delegates from every club that can possibly send one, I am

Cordially,
MRS. J. L. LANDRUM,
Organizer and Supervisor Girls' Clubs.

Red Cross Notes.

Resolutions of Respect.

Hondo, Texas, Aug. 6 h. 1918.

To the officers and members of Medina Lodge No. 867, I. O. O. F.

We, your committee, appointed to draft resolutions on the death of Brother T. N. LEE, beg leave to submit the following:

Whereas, the Supreme Ruler of the Universe in His infinite wisdom has seen fit to remove from among us, on July 30th, 1918, Brother T. N. LEE; Whereas, in his death, our lodge has lost a true brother in the Order, the community a most worthy and upright citizen and the family an obedient son:

Therefore Be It Resolved, That while we feel our loss and that a vacancy exists in our lodge, we bow to the will of our Creator, and

Resolved, that we extend to the bereaved family our heartfelt sympathy in this hour of affliction, and

Resolved that a copy of these resolutions be spread upon the minutes of this lodge, a copy sent to the family of the deceased brother, and copies sent to The Anvil Herald and The Texas Oddfellow for publication.

Fraternally submitted,
HY. MERRIMAN,
Committee: F. M. POS Y,
H. A. MERCER.

PRESS REPORTER.

Ross Holloway Wounded.

The name of Ross Holloway was carried in the casualty list of last Monday as being severely wounded. It was also rumored several days ago, that Clyde Holloway had also been wounded in action. In fact, Mrs. J. W. Holloway received notice that Clyde had been wounded, but so far as we know, his name has not been mentioned in the casualty list, and we are constrained to believe that Ross and not Clyde is the one now in the hospital recovering from wounds.

This mistake could easily be made by the intelligence officer in charge of this branch of the service. Both being Holloways and both being from Hondo, I would make a mistake in the given names easy, and we trust that such has been the case.

The Holloway boys were among the first to enlist following the declaration of war, and were among the first to cross over. It is known that they have taken part in some of the most desperate fighting that has taken place on the western front. Both of these boys have proven valiant soldiers and the people of Hondo would be greatly grieved should any serious mishap befall either of them.

SHARE OUR SUGAR WITH THE ALLIES

British Get Two Pounds a Month, French Pound and Half, Italians One Pound.

GERMAN SUPPLY PLENTIFUL.

All Nations Permit Use of Sweetening for Home Preserving Purposes.

America's new sugar ration of two pounds a month per person is equitable when compared with the sugar ration enforced by rigid governmental order in England, France and Italy, nations with which we are sharing sugar.

Each Allied nation—in the matter of sugar consumption—is sharing on nearest possible equal terms the hardships imposed by greatly altered conditions in the world sugar situation.

Formerly classed as a luxury, sugar is now a war time essential. The fair and just division of this essential is in the hands of the various Allied food controllers.

The United States Food Administration has asked this nation to observe a voluntary sugar ration of two pounds per person a month.

In the other countries at war with Germany sugar is one of the scarce articles on every menu—whether in the households of both rich and poor, or in the hotels.

England today has a sugar ration of two pounds per month per person. In France the ration is a pound and a half and in Italy it is one pound a month. And the prices in allied countries are from two to three times as high as in America.

If you go to a hotel in England or France these days and order tea or coffee they serve absolutely no sugar with it. If you want sugar you must bring it with you.

In England it is allowable to use one-seventh of an ounce of sugar in the preparation of each luncheon. In France many persons carry little saccharine tablets about with them for use in hotels and in England rich and poor must take their sugar with them if they wish to have sweetened tea while visiting friends.

Before the war started France had 625,000 acres devoted to sugar production. By 1917 the French sugar acreage had decreased to 180,000 acres. Today the French man or woman with a sugar card has no assurance whatever that he or she will be able to actually buy sugar. To buy it, one must first find it.

Italy Has "State Sugar."

Especially drastic regulations govern the use of sugar in Italy. Its manufacture, distribution and sale are closely controlled, and in part actually taken over by the state.

Saccharine is permitted to be sold and used as a substitute for sugar and the government manufactures a mixture of saccharine and sugar called "State Sugar," which is largely used.

German Sugar Ration Adequate.

Germany, before the war, produced a great surplus of sugar and exported large quantities. Today the Germans have virtually gone out of the export business, but have plenty of cheap sugar for home use.

Wholesale prices prevalent in the Allied nations, according to information received by the United States Food Administration are as follows: England, 10 cents a pound; France, 12 cents; Italy, 26 cents.

While these high prices are being paid abroad the American wholesale price is being held at 7½ cents.

When you yawn a good deal in the daytime, feel dull, achey and want to stretch frequently it is an unmistakable symptom of malaria, and unless you do something at once you are booked for a spell of chills. HERBINE is a mild medicine that will prevent or cure the disease. It drives out the impurities on which the malarial germ thrives, strengthens the liver and cleanses the bowels. Price 50c. Sold by W. CAPTAIN HARRELL
DECLARES HE HAS FOUND RIGHT THING.

Daughter Had Suffered All Her Life—Now in Splendid Health—Troubles Gone And She Plays All The Time.

"You ought to see what a wonderful change Tanlac has made in my little girl, why, she's like a different child," said Captain T. M. Harrell, residing at Ingleside, Georgia, who was for twenty-five years a conductor on the Seaboard.

"The child was never strong and had suffered ever since a baby," he continued. "She complained of headaches most all the time and her kidneys gave her no end of trouble. She had no appetite and what little she ate soured in her stomach and would put her in misery for hours, so that she could hardly sleep at night. She was weak and nervous and could not play like other children, although she wanted to. We gave her one thing after another, but nothing did her any good. 'I found the right for her, though, when I started giving her Tanlac. She began picking up right soon after she started taking it. Her strength has been built up wonderfully, her kidneys don't worry her like they did and she eats and sleeps like any other healthy youngster. Tanlac has given her health and happiness and she's now going to school and playing along with other children as if she'd never been sick at all."

Tanlac is sold in Hondo by W. H. Windrow, in Devine by Lion Drug Store, in D'Hanis by Louis Carle, in LaCoste by Dickey Drug Co., and in Dunlay by Louis A. Haby.

Removes Hatpin Danger.

Clipping the point from a safety pin, sliding the coil over a hatpin and closing the clasp over the point of the latter will protect it from injuring a person.

Paper From Linen Rags.

When paper was first made from linen, rags is uncertain, but a writer of A. B. 1200 recorded that the linen wrappings round mummies were sold to the scribes to make paper for shopkeepers.

If you sit in a cool draft when you are heated and get a stiff neck or lame back, you will be looking for something that will ease the pain. Fix your mind on BALLARD'S SNOW LINIMENT and don't be talked out of it because it is the best pain relieving liniment you can get anywhere. Price 25c, 50c and \$1.00 per bottle. Sold by W. H. Summer Complaint.

During the hot weather of the summer months some member of almost every family is likely to be troubled with an unnatural looseness of the bowels, and it is of the greatest importance that this be treated promptly, which can only be done when the medicine is kept at hand. Mrs. F. F. Scott, Scottsville, N. Y., states, "I first used Chamberlain's Colic and Diarrhoea Remedy as much as five years ago. At that time I had a severe attack of summer complaint and was suffering intense pain. One dose relieved me. Other members of my family have since used it with like results."

LaCoste Ledger Laconica.

Rudolph Wurzbach Sr. of Riomedina was a business caller here Monday.

Mr. and Mrs. Frank Wurzbach and children of Riomedina were pleasant visitors here Tuesday.

Born, to Mr. and Mrs. Frank Biry of Hurley, New Mexico, a baby girl, July 22, 98.

The infant son of Mr. and Mrs. Wm. Jungmann was baptized in St. Mary's Church Sunday. The names given the infant are Mathias, Philip. The sponsors were Miss Helen Jungmann and Mr. Hugo Sueltenfuss.

To Cotton Producers.

Your attention is called to the fact that there is a State official organization all over the South known as the Cotton States Official Advisory Marketing Board, composed of the Commissioners of Agriculture, the Directors of Markets, and the Presidents of the Farmers Union of each of the Cotton States. The object of this organization is to find the cost of producing cotton annually, and, based on this, to name the price cotton ought to bring; then, through the press and travelling representatives, to urge the farmers, merchants, and bankers, all of whom compose the producers, to hold their cotton for that price.

It should be remembered that this organization is the only influence which prevents cotton from selling at 15 cents today. The price will be given out at the State institute meeting at Waco, Texas, August 21st and 22nd.

Some people in the southern sections may think the price should have been given out sooner, but, as these figures will be based upon actual work done in producing the crop, and as many in the northern sections of the cotton belt are not through cultivating yet, it has been impossible to prepare them sooner.

The price being paid for cotton is not as much as it should be and every bale sold is a heavy loss; besides, every bale sold before the price is named, and for a less price, is depressing the price that much.

With this explanation, allow me to urge seriously that the producers co-operate with the Official Board in its effort to maintain profitable prices by offering no more cotton for sale until the price is named. Then to sell none on a declining market. If this course is pursued there will be no trouble in maintaining prices.

Very truly yours,
FRED W. DAVIS,
Commissioner of Agriculture.

Granulated Sore Eyes Cured.

"For twenty years I suffered from a bad case of granulated sore eyes, says Martin Boyd of Henrietta, Ky. "In February 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two-thirds of it and my eyes have not given me any trouble since." This salve is for sale by all dealers.

Book Farming.

Away back in the palmy days of Roman ascendancy, Virgil in his first book of the Georgics, wrote:

"First learn the peculiarities of your soil and climate. Plough the fallow in early spring, and plough frequently—twice in winter, twice in summer unless your land is poor, when a light ploughing in September will do. Either let the land lie fallow every other year or else let it follow pulse, vetches or lupine. Repetition of one crop exhausts the ground; rotation will lighten the strain, only the exhausted soil must be copiously dressed with manure or ashes. It often does good to burn the stubble on the ground. Harrow down the clods, level the ridges by cross ploughing, work the land thoroughly. Irrigation benefits a sandy soil, draining a marshy soil. It is well to feed down a luxuriant crop when the plants are level with the ridge tops. Geese and cranes, chicory, mildew, thistles, cleavers, cat-tails, dandelion and shade are farmer's enemies. Scare off the birds, harrow up the weeds, cut down all that shades the crop. Ploughs, waggons, threshing-sledges, harrows, baskets, hurdles, winnowing fans are the farmer's implements. The plough consists of several parts made of seasoned wood. The threshing-floor must be smooth and rammed hard to leave no services for weeds and small animals to get through. Some steep seed in soda and oil lees to get a larger produce. Careful annual selection by hand of the best seed is the only way to prevent degeneration. It is best to mow stubble and hay at night when they are moist."

The author who wrote the above was born seventy years before Christ and wrote it, evidently, before the days of the Christian era. Notwithstanding this evidence of antiquity, there are yet some who scoff at the scientist and the "book farmer" as if he were the invention of some modern fakir.

Good Talks to Farmers.

Caldwell, Tex., Aug. 2.—J. C. Hest and of Sherman made to a crowd of farmers here yesterday one of the finest talks on hogs and hog raising that has been delivered here at any time on the subject. Field Agent Fletcher Davis of the state department of agriculture made an excellent address on the necessity of raising crops and foodstuffs and saving them. The two addresses were the best and the best received that have been made here in a long time.—Houston Chronicle.

Jerusalem Chamber.

Jerusalem chamber is the historic name of an apartment in Westminster abbey which once was adorned with tapestries or pictures of the history of Jerusalem. March 20, 1413, while praying in Westminster abbey, Henry IV was seized with a fainting fit and was carried to the Jerusalem chamber where he died.

A Silly Question.

When the bicycle was at the height of its popularity one of the comic papers had a squib in which a neighbor was represented as asking of a five-year-old, "Can your baby sister walk yet, Johnny?" "Walk?" responded Johnny, scornfully, "I should say not. She can't even ride a bicycle yet."

Ask Anyone Who Has Used It.

There are families who always aim to keep a bottle of Chamberlain's Colic and Diarrhoea Remedy in the house for use in case it is needed, and find that it is not only a good investment but saves them no end of suffering. As to its reliability, ask anyone who has used it.

To Resist the Attack

of the germs of many diseases such as Grip, Malaria, means for all of us—fight or die. These germs are everywhere in the air we breathe. The odds are in favor of the germs, if the liver is inactive and the blood impure.

What is needed most is an increase in the germ-fighting strength. To do this successfully you need to put on healthy flesh, rouse the liver to vigorous action, so it will throw off these germs, and purify the blood so that there will be no "weak spots," or soil for germ-growth.

We claim for Doctor Pierce's Golden Medical Discovery that it does all this in a way peculiar to itself.

It cures troubles caused by torpid liver or impure blood. Liquid or tablets. All druggists. Tablets, 60 cents.

Send Dr. V. M. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., 10 cents for trial package.

FORT WORTH, TEXAS.—"It is with pleasure I write saying, over 40 years ago I was in business in Cayuga Co., New York, and sold Dr. Pierce's Family Medicines and always found they gave my customers entire satisfaction. I think every household should have these remedies on hand. By using them and following the directions many doctor bills will be saved. I most certainly recommend them to one and all. I came to Texas a number of years ago. I still keep Dr. Pierce's medicines in mind, and the 'Golden Medical Discovery' I can honestly say has no equal. I always keep a bottle on hand to take when I feel a little out of sorts, and especially as a spring tonic."—H. L. Downs, O. L. V. College.

Chronic Constipation.

It is by no means an easy matter to cure this disease, but it can be done in most instances by taking Chamberlain's Tablets and complying with the plain printed directions that accompany each package.

Calomel Users! Listen To Me! I Guarantee Dodson's Liver Tonic

Your druggist gives back your money if it doesn't liven your liver and bowels and straighten you up without making you sick.

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tonic—a perfect substitute for calomel. It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate. Children and grown folks can take Dodson's Liver Tonic, because it is perfectly harmless. Calomel is a dangerous drug. It is mercury and attacks your liver. Take a dose of nasty calomel and you will feel weak, sick, nauseated tomorrow. Don't let it do your work. Take a spoonful of Dodson's Liver Tonic instead. You will wake up feeling great, more biliousness, constipation, gishness, headache, coated tongue, sour stomach. Your druggist acts better than horrible calomel. Your money is waiting for you.

INDIGESTION.

If you are ever troubled with indigestion, Chamberlain's Tablets will do you good. They strengthen the stomach and enable it to perform its functions naturally. There are hundreds of people who have been restored to health and happiness by the use of Chamberlain's Tablets. When you feel dull and languid after eating you may know that your digestion is faulty, unless you have eaten more than you should. Belching, sour stomach, bloating are symptoms of indigestion and are relieved by taking Chamberlain's Tablets as directed. Indigestion is usually accompanied by constipation and is aggravated by it. Chamberlain's Tablets cause a gentle movement of the bowels, relieving the stipated condition. Chamberlain's Tablets are also most excellent for biliousness. Sold everywhere at

For those who seek relief from kidney backache, weak kidneys, bladder ills, Doan's Kidney Pills offer hope of relief and the proof is here in Hondo the same as everywhere. Hondo people have used Doan's and Hondo people recommend Doan's, the kidney remedy used in America for fifty years. Why suffer? Why run the risk of dangerous kidney ills — fatal Bright's disease. Here's Hondo proof. Investigate it.

Mrs. Jack Drotcourt, Hondo, says: "A severe attack of backache kept me in the house for two weeks. My back pained almost constantly, scarcely letting up night or day. I felt miserable and wasn't able to attend to my housework. Two boxes of Doan's Kidney Pills, which I got at Windrow's Drug Store, took the pains out of my back and completely cured me of the trouble. Three years have passed and it hasn't returned."

Company C in France.
Advices were received last Saturday evening that Company C, 141st Infantry, 36th Division, had landed safely in France. While it had been thought sometime that the boys were preparing to go over, the time of their departure was kept so quiet that nothing definite as to their whereabouts was known until information came that they had safely arrived over there. This company is composed almost exclusively of Medina and Uvalde county boys, and is commanded by Captain Mythe of Uvalde, and Lieuts. Emmett and Elbert de Montel of Hondo. The Hondo boys are going over so soon that it is hard to keep up with them. Dr. O. E. Taylor with the hospital service, and Louis Brucks with the surveying corps, are also in France. There are doubtless many more of our boys over there whose names we have not yet heard. We will take greater pleasure, however, in reporting their return home than their safe passage over.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD
Delicious "Fruit Laxative" can't harm tender little Stomach, Liver and Bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

Their Menu

"Most unusual—even unprecedented," said Hayes. "There must be something wrong with this grocery bill for last week! With prices as high as they are now we never could have lived on such a small amount as that, especially on the kind of meals you've been serving."

"Do you think the meals have been good?" meekly inquired Mrs. Hayes. "Good! I think they have been entirely too good. In fact, I think you have been a little extravagant, especially for the last ten days. We ought to do our part by cutting down on elaborate meals. What's so funny about that?"

Mrs. Hayes was struggling with laughter while she wiped the tears from her face. "Oh, Jack, you are the biggest goose I ever saw," she said. "Why, I've been practicing conservation for the last ten days. I—"

"You can't tell me there was anything conserving about that dinner we had tonight."

"Well, I just can't! Our dinner tonight was a regular war dinner."

"You remember that the only thing I had been doing for our boys and our country was knitting and, of course, I wanted to do something more than that," explained Mrs. Hayes. "So I signed the Hoover pledge card and I've been going to conservation meetings every day and I've learned a lot."

"That's fine—glad to hear it, but how about that dinner tonight?"

"I'm coming to that. To begin with, the soup was made from the chicken gravy I had left from Sunday dinner."

"Yes, but today is Tuesday," protested her husband.

"Of course, but what of it? Yesterday we had creamed chicken on toast made from the chicken left from Sunday and also a rice curry, flavored with the chicken soup. Then today I combined the water I had boiled the rice in yesterday with the chicken gravy I had left and with a little seasoning it made our soup tonight."

"Potatoes are cheap. I bought some from the huckster Saturday for 25 cents a peck. So you see our potatoes tonight cost about a penny and the turnips cost 5 cents."

"How about the croquette? Of course you had to buy meat for them?"

"Nothing of the kind. You know we only have steak once a week now? The croquettes were made from a piece of steak left from Saturday night's dinner combined with an onion, some bread crumbs and seasoning."

"Good, so far, but you can't get away from the fact that it takes eggs, butter and milk to make cake."

"Wrong again! Our cake tonight was an eggless, milkless, butterless cake and the sauce was some plum juice thickened that I had left after canning plums. There wasn't enough of the thickened juice to make a glass of jelly or I should have used it for that and we'd have eaten the cake plain."

"Of course we must save our wheat for our own soldiers and the French and British. The only wheat flour I have used all day was one cup that went in the cake. You know we had corn cakes for breakfast and rye bread for lunch and dinner."

"Help! Help!" implored Hayes. "I kneel to your ladyship and crave your pardon for daring to doubt one so efficient. There is only one thing troubling me and that is the delicious salad we had for dinner last evening. Perhaps you'll tell me it was made out of a spoonful of air and a wisp of cloud, flavored with a dewdrop and garnished with a sunbeam?"

"Pretty near," laughed Mrs. Hayes. "I'd been making chowchow and after it was canned there were a couple of tablespoonfuls left, so I mixed that with a tomato, an onion, a couple of leftover potatoes, a bit of celery, dressed it with vinegar and garnished it with parsley from my parsley box."

"I am swathed in humbleness, my dear," said Hayes. "If you keep this up we can soon buy another Liberty bond and become vulgarly healthy besides."

OUR SAVED FOOD FED THE ALLIES

Food Administrator Writes President America Conserved 141,000,000 Bushels Wheat.

CREDIT DUE TO WOMEN.

Meat and Fat Shipments Increased by 844,600,000 Pounds.

Conservation measures applied by the American people enabled the United States to ship to the Allied peoples and to our own forces overseas 141,000,000 bushels of wheat and 844,600,000 pounds of meat during the past year, valued in all at \$1,400,000,000. This was accomplished in the face of a serious food shortage in this country, bespeaking the wholeheartedness and patriotism with which the American people have met the food crisis abroad. Food Administrator Hoover, in a letter to President Wilson, explains how the situation was met. The voluntary conservation program fostered by the Food Administration enabled the piling up of the millions of bushels of wheat during 1917-18 and the shipment of meat during 1917-18.

The total value of all food shipments to Allied destinations amounted to \$1,400,000,000, all this food being bought through or in collaboration with the Food Administration. These figures are all based on official reports and represent food exports for the harvest year that closed June 30, 1918.

The shipments of meats and fats (including meat products, dairy products, vegetable oils, etc.) to Allied destinations were as follows:

Fiscal year 1916-17.....2,166,500,000 lbs.
Fiscal year 1917-18.....3,011,100,000 lbs.

Increase 844,600,000 lbs.

Our slaughterable animals at the beginning of the last fiscal year were not appreciably larger than the year before and particularly in hogs; they were probably less. The increase in shipments is due to conservation and the extra weight of animals added by our farmers.

The full effect of these efforts began to bear their best results in the last half of the fiscal year, when the exports to the Allies were 2,133,100,000 pounds, as against 1,266,500,000 pounds in the same period of the year before. This compares with an average of 801,000 pounds of total exports for the same half years in the three-year pre-war period.

In cereals and cereal products reduced to terms of cereal bushels our shipments to Allied destinations have been:

Fiscal year 1916-17.....259,900,000 bushels
Fiscal year 1917-18.....340,800,000 bushels

Increase 80,900,000 bushels

Of these cereals our shipments of the prime breadstuffs in the fiscal year 1917-18 to Allied destinations were: Wheat 131,000,000 bushels and of rye 13,900,000 bushels, a total of 144,900,000 bushels.

The exports to Allied destinations during the fiscal year 1916-17 were: Wheat 133,100,000 bushels and rye 2,300,000 bushels, a total of 135,400,000 bushels. In addition some 10,000,000 bushels of 1917 wheat are now in port for Allied destinations or en route thereto. The total shipments to Allied countries from our last harvest of wheat will be therefore, about 141,000,000 bushels, or a total of 154,900,000 bushels of prime breadstuffs. In addition to this we have shipped some 10,000,000 bushels to neutrals dependent upon us, and we have received some imports from other quarters.

"This accomplishment of our people in this matter stands out even more clearly if we bear in mind that we had available in the fiscal year 1916-17 from net carry-over and as surplus over our normal consumption about 200,000,000 bushels of wheat which we were able to export that year without trenching on our home loaf," Mr. Hoover said. "This last year, however, owing to the large failure of the 1917 wheat crop, we had available from net carry-over and production and imports only just about our normal consumption. Therefore our wheat shipments to Allied destinations represent approximately savings from our own wheat bread."

"These figures, however, do not fully convey the volume of the effort and sacrifice made during the past year by the whole American people. Despite the magnificent effort of our agricultural population in planting a much increased acreage in 1917, not only was there a very large failure in wheat, but also the corn failed to mature properly, and our corn is our dominant crop."

"I am sure," Mr. Hoover wrote in concluding his report, "that all the millions of our people, agricultural as well as urban, who have contributed to these results should feel a very definite satisfaction that in a year of universal food shortages in the northern hemisphere all of those people joined together against Germany have come through into sight of the coming harvest not only with wealth and strength fully maintained, but with only temporary periods of hardship."

"It is difficult to distinguish between various sections of our people—the homes, public eating places, food trades, urban or agricultural populations—in assessing credit for these results, but no one will deny the dominant part of the American women."

A hoarder is a man who is more interested in getting his bite than in giving his bit.

War Time Sweeteners

AMERICA has several excellent war time sweeteners that will be used largely during the shortage in the sugar supply. They are maple sugar, syrups, honey and molasses and may be used in preparing desserts and other dishes requiring sweetening. When a cup of syrup or honey is used to replace a cup of sugar the liquid in the recipes should be decreased one-fourth. One-third of a cupful of sugar is equivalent to one-third of a cup of honey, about one-half cup of syrup and about one-half cup of corn sugar. One-fourth of a cup of sugar is equal to about one-half cup of syrup or one-third cup of corn sugar. One tablespoon of sugar is equal to one tablespoon of honey, about one and one-half tablespoons of syrup and one and one-third tablespoons of corn sugar. Sugar may be saved by the use of raisins, dates, figs, dried pears and fruit pastes used on the breakfast cereals. Fruit marmalades, butters and jellies should be used to take the place of the ordinary sweetening at a meal and not as accessories to it. Fruits may be preserved without sugar. It may be added when sugar is more plentiful. Preserving demands this year a thin syrup instead of a heavy syrup. If sugar is used one-half of the amount may be replaced by another sweetener. Drying is a means of preserving (without sugar) apples, cherries, strawberries and black caps. When ready to use they may have added the needed sugar in the form of a syrup. When sugar is more plentiful fruit juices may be made into jellies or may be used as fruit juices with or without sugar, as beverages, fruit gelatins and frozen desserts. Fresh fruits supply the place of sugar in the diet. They should be used freely. Desserts where sugar is scarce may be made of gelatins, junkets, custards, puddings and cakes.

Russia Originally Democratic.
Six hundred years ago it was the old Russia that arose out of Rurik the Norman's conquests, and had its capital at Kiev. There were czars and overlords after a fashion. But the real government of Russia was in the market place at Kiev and of every little town and village on the great wide steppes, where on the great days of the year the people gathered together, warriors, traders, women, too, chose their local officials. The original heart of Russia was democratic to the core.

IF YOUR CHILD IS CROSS, FEVERISH, CONSTIPATED
Look, Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children, of all ages and for grown-ups.

COMPLETE REST

Drying Foods.
The process of drying as means of preserving food for storage possesses great advantages over canning and cold storage, while employing practically every advantage obtained by those agencies, says a food specialist. Dehydration greatly diminishes both the bulk and weight of the material, making it both easier and cheaper to store and transport. The food value is concentrated, while at the same time preservation is secured by the removal of the water.

Plant Life Changes.
The life of plant varieties grown from seed, in their pure and original forms, is very short, notes a botanist. They soon pass in slightly different forms and the process is constantly taking place. So that in a few years a named variety is quite unlike the original, even though a direct descendant. Everything grown from one original seed is soon broken up into many divergent forms, and in some cases this takes in the first generation.

AMERICANS ASKED TO LIMIT USE OF SUGAR

Must Use No More Than Two Pounds
Per Person a Month if the Present
Meagre Allied Sugar Ration
Is Maintained.

Stocks Will Be Short Until Beginning of New
Year--Ration May Be Enlarged Then.

Two pounds of sugar a month—half a pound a week—that is the sugar ration the U. S. Food Administration has asked every American to observe until January 1, 1919, in order to make sure there shall be enough for our army and Navy, for the Allied armies and for the civilians of those nations.

By New Year's the world sugar situation will be relieved somewhat by the new crop. Cuban sugar of this year's crop will be arriving in this country.

Every available sugar source will be drawn on by the Food Administration during the next winter months to maintain sufficient stocks here to keep up our national sugar supply. During October the first American beet sugar will arrive in the markets. By the middle of November some of our Louisiana cane crop will be available. All of this sugar and more may be needed to keep this nation supplied on a reduced ration and to safeguard the Allied sugar ration from still further reduction. In Europe the present ration is already reduced to a minimum.

Our Situation.

The situation which the United States faces in its efforts to maintain a fair distribution of sugar to the Allied world is as follows:

Sugar supplies throughout the country, in homes, stores, factories and bakeries are at a low ebb. We must make increased sugar shipments to the Allies.

Production of American beet and Louisiana cane crops have been disappointing.

Porto Rico crops have been curtailed.

Immense sugar stocks in Java cannot be reached on account of the shipping shortage; ships are needed for troop movements and munitions.

Army and Navy sugar requirements have increased as well as those from the Allies.

Most industries using sugar have had their allotment reduced by one-half; some will receive no sugar.

Households should make every effort to preserve the fruit crop without sugar, or with small amounts of sugar. Later, when the sugar supply is larger, the canned fruit may be sweetened as it is used.

Saving Sugar Saves Shipping

AMERICAN families would have less sugar than the people of war torn France, if we depended entirely on our home-grown sugar stocks.

Approximately 75 per cent. of our sugar is shipped to our shores. We produce about 1,000,000 tons of sugar a year. Our imports from abroad amount to over 3,000,000 tons a year in normal times.

The United States Food Administration asks each family to limit its use of sugar to two pounds per month per person for household use. The military situation demands that every available ship be placed at the disposal of the Army or Navy. When we save sugar, we save shipping.

French Sugar Mills Destroyed

France's most important sugar today, most of it from this side of the ocean, because the largest portion of French sugar beet land is in German hands. As a result, the French people have been placed on a sugar ration of about 18 pounds a year for domestic use; a pound and a half a month. This photograph shows how the German

troops destroyed French sugar mills. Thanks to the French rationing system the annual consumption has been cut to 600,000 tons, according to reports reaching the United States Food Administration. Before the war France had an average sugar crop of about 750,000 tons of sugar and had some left over for export.

WONDERFUL LIFT OUT YOUR CORNS

Apply a few drops then lift corns or calluses off with fingers—no pain.

No kidding! Any corn, whether hard, soft or between the toes, will loosen right up and lift out, without a particle of pain or soreness.

This drug is called freezezone and is a compound of ether discovered by a Cincinnati man.

Ask at any drug store for a small bottle of freezezone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callus.

Put a few drops directly upon any tender, aching corn or callus. Instantly the soreness disappears and shortly the corn or callus will loosen and can be lifted off with the fingers.

This drug freezezone doesn't eat out the corns or calluses but shrivels them without even irritating the surrounding skin.

Just think! No pain at all; no soreness or smarting when applying it or afterwards. If your druggist don't have freezezone have him order it for you.

Girls! Make this cheap beauty lotion to clear and whiten your skin.

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

A BOX FROM HOME

Drawn by Gaar Williams, Division of Pictorial Publicity.

Food savings of millions of Americans during our first year of war enabled this government to send enormous food shipments abroad for our fighting forces and the Allied nations. Our savings in cereals—out of a short crop—amounted to 154,900,000 bushels; all of which was shipped to Europe. We increased our meat and fat shipments 844,600,000 pounds. This was America's "box from home" to our army abroad and the civilians and military forces of the Allied nations.
